

DSLPOA Lost & Found

1. Sailboard - Lost Forever

Recently a broken sailboard washed ashore in Bonham's Bay. If someone is looking for it we wanted to let you know that it was broken and a write off. One of our neighbours fished the parts out of the water and took them away to avoid problems. The sailboard was white with some black and yellow stripes. It could have had the numbers 303 or 330 on it. It looked like it had been in the water for a while.

2. Canoe missing – July1, 2011

Sometime between last Saturday afternoon and this morning, our canoe went missing. It is a metal canoe, finished to look like birch bark. It has white floaters along each side, and a motor mount on the back. The interior is black with foam seats strapped in.
