

## **Want to Move Or Start a Business at The Cottage – Help Is On The Way!**

It's astounding how many cottagers end up making their home in the highlands. Most think that after a life of working hard they'll retire to the easy life.

### **HALT.**

An increasing number realize that they still have dragons to slay and see exciting new horizons by starting a new business they've always had a passion for.

### **PROCEED.**

That's where the Haliburton Creative Business Incubator comes in. Instead of struggling away in the "home office" or on the kitchen table or in the garage, young businesses (not necessarily young people) take residence in the incubator, located in the Village of Haliburton. The space is affordable and high speed internet is included in the price, but that's not what is important. Each tenant has access to the mentoring program. The manager (Mike Jaycock) and the tenant's selected mentor provide ongoing counsel to the emerging business. Special advisors are brought in on an as-required basis. This amazing support is all part of the one monthly cost. Space availability should be checked into.

If you're bringing a dream to your home in the highlands this is a program you will definitely want to consider. There's good information available at [www.haliburtoncdc.ca/incubator](http://www.haliburtoncdc.ca/incubator) or you can follow the blog at [hcbi.wordpress.com](http://hcbi.wordpress.com). Email is [hcbi@bell.net](mailto:hcbi@bell.net)

### **FORWARD.**
