

## CEWF Priorities for 2022

### What is the CEWF?

The **Coalition for Equitable Water Flow, (CEWF)**, is a coalition of 32 member Lake Associations which includes 91% of the Trent Severn Waterway's (TSW's) reservoir lake storage capacity and covers the sub-watersheds of the Gull, Burnt & Mississagua Rivers plus Nogies, Eels & Jack's creeks. The Coalition aims to represent the interests of shoreline property owners in the "Haliburton Sector" of the Trent watershed, which includes 35 Reservoir and several Flow-Through (RaFT) lakes in Haliburton County and northern Peterborough County. The CEWF was originally formed in 2006 to provide input to **the Panel on the Future of the Trent Severn Waterway**. Since then, the mandate has evolved to provide effective liaison between the Coalition members and the TSW on issues of water conservation and management. The Coalition is led by a ten-member Executive Committee.

In early 2016, the CEWF concluded an agreement with the six local municipalities covering the RaFT lakes area: the Township of Algonquin Highlands, the Municipality of Dysart et.al., the Municipality of Minden Hills, and the Municipality of Highlands East in Haliburton County, and the Township of North Kawartha, and the Municipality of Trent Lakes in northern Peterborough County; to form the **Upper Trent Water Management Partnership (UTWMP)** to speak with a single voice at the federal, provincial and Trent Watershed levels on water management issues affecting the RaFT lakes. The CEWF Chair, CEWF Vice-Chair and one other CEWF Executive Member serve on the UTWMP Council.

### The CEWF's Objectives

- To promote an **Integrated Approach to Water Management at the Watershed Level** that will improve water conservation throughout the Trent-Severn system while recognizing the environmental, public safety, social and socio-economic constraints of managing the water resource. For this initiative, the CEWF will work independently as well as through the Upper Trent Water Management Partnership.
- To maintain ongoing **dialogue with TSW management** to ensure mutual understanding of local issues with respect to TSW management of water levels and flows in the RaFT lakes.
- To promote **shared information and knowledge** of water management issues and practices primarily to Coalition lake associations as well as for all stakeholders across the entire Trent watershed.
- To promote approaches to ensure safe navigation, access to waterfront property, economic sustainability and the avoidance of negative environmental and economic impacts for residents on the RaFT lakes.

### **The CEWF's Priorities for 2022**

- 1) The CEWF's main priority will continue advocating with the TSW for an Integrated Approach to Water Management at the Watershed level by continuing to emphasize and build on the excellent water management experiences in recent years with respect to drought conditions, extreme rainfall events, flood risk management and other issues and challenges.
- 2) The CEWF will continue to liaise with member lake associations to raise the level of understanding of water management issues with an emphasis on recent extreme weather patterns (floods, droughts and ice damage) and their apparent relationship to the medium-term climate change predictions for the RaFT lakes area. In 2022, this effort will be enhanced by a special video based Communication Project, as well as more extensive outreach to the lake communities, including work with lake associations to provide links to TSW information.
- 3) The CEWF will monitor on behalf of lake associations, and work with the TSW and UTWMP as required on the Haliburton County Flood Plain Mapping project.
- 4) The CEWF will continue to monitor the TSW Capital Program in the RaFT lakes area, provide regular updates to our members, and ensure the participation of our member associations in project consultations as appropriate.
- 5) The CEWF will, as and when requested by Parks Canada, provide constructive input on the draft of the new TSW Management Plan, having advocated at 2019 visioning sessions that integrated water management throughout the TSW be recognized as a core mandate.
- 6) The CEWF will continue to work with TSW to improve the information content of their water management web pages and improvements to lake-specific water level graphs
- 7) The CEWF will provide lake association members with information about candidates' views on water management leading to the October municipal elections.

### **The CEWF Executive Committee Members 2022**

Ted Spence, Catchacoma Lake, Chair,	Bruce McClennan, Gull Lake, Vice Chair,
Roger Cunningham, White Lake, Secretary/Treasurer	
Geoff Byford, Mountain Lake	Bill Cornfield, Horseshoe Lake,
David Lean, Jack's Lake,	Chris Riddle, Member at Large,
Martin Rist, Drag & Spruce Lakes,	Will l'Heureux, Hall/Hawk Lakes
Carol Moffatt, Beech Lake
